MAGYAR ANTIDOPPING CSOPORT
KÖZHASZNÚ NONPROFIT KFT.
HUNGARIAN ANTI-DOPING GROUP

HUNGARIAN ANTI-DOPING GROUP

ANNUAL REPORT

2018

**Hungarian Anti-Doping Group Health and Service Non-profit
Limited Liability Company**

The Hungarian Anti-Doping Group Ltd. was established on March 20, 2007, to participate in Hungarian anti-doping activities. The company's employees, as Doping Control Officers, had already participated in the domestic anti-doping fight, but now they have been given the opportunity to establish an independent and effective anti-doping organization in its work.

In August 2007, the organization won the 2003 CXXIX Public Procurement Tender by the Ministry of Local Government and Regional Development, pursuant to the Act on the Rules of Anti-Doping Activities, 88.2007 (IV.26.) Government Decree No 55.2004 (III.31.) for the implementation of doping sampling and management procedures as defined in the government decree and for the full presentation of the tasks of the National Anti-Doping Organization (NADO). In this way, the Hungarian Anti-Doping Group Ltd. fulfilled its full authority and all its tasks until 31 December 2011. Although the Public Procurement Contract had not previously obliged The Hungarian Anti-Doping Group Ltd. in this respect, the company nevertheless carried out non-profit-making management throughout its existence and used its entire revenue to fight doping.

Subsequently, the regulation of anti-doping activities was amended in 2011 in order to fully comply with the provisions of the WADA Code, in Government Decree 43.2011 (III.23.), which currently defines the activities of the National Anti-Doping Organization (HUNADO). In 2011, during the public procurement procedure registered under number 28313, which was announced by the Hungarian Olympic Committee in the field of "full performance of the tasks of the National Anti-Doping Organization (HUNADO) as defined in Government Decree No. 43.2011 (III.23) on the rules of anti-doping activities", the Hungarian Anti-Doping Group Ltd., which was founded as a non-profit organization for public benefit, repeatedly applied for and won it, and subsequently, a contract of assignment was

**OUR MOTTO IS "HONEST PLAY IS THE ONE
WAY."**

awarded with the Hungarian Olympic Committee. On the basis of this mandate, the Hungarian Anti-Doping Group Non-profit Ltd. continued to perform the full tasks and powers of the National Anti-Doping Organization (HUNADO) in the period from 01 January 2012 to 31 December 2015.

It was an honor and at the same time a professional recognition for us that after the end of this period, as a result of a public procurement procedure conducted by the State Secretariat for Sports of the Ministry of Human Resources, the Hungarian Anti-Doping Group Ltd. has been given the trust and mandate to carry out the tasks of the National Anti-Doping Organization (HUNADO) until 31 December 2019.

The guiding principle of our activities is that "doping is fundamentally contrary to sport", therefore the most important goal of our anti-doping work is to enforce the prohibition of unreasonable performance-enhancing on the basis of the current legal and other regulatory background, thereby achieving and preserving the "spirit of sport", its purity, and equal opportunities.

Our motto is "Honest play is the only way!"

One of the many levels of our anti-doping activity is doping control itself, which goes from the planning and organization of sampling, through the on-site execution of urine and/or blood collection to safe transport to the appropriate laboratory. Another part of our activity is the educational – preventive activity, in which we provide the information necessary for the cleanliness of the sport, doping legislation, warnings, current prohibition lists, etc. to Athletes and the professionals who help them.

TESTING PROGRAM

The professional activity of the Hungarian Anti-Doping Group, as the body performing the functions and powers of the National Anti-Doping Organization (HUNADO), in the period from 01 January 2018 to 31 December 2018:

HUNADO's anti-doping activities are multi-level, one of which is doping control itself, which covers the planning and organization of sampling, on-site urine and / or blood sampling, and safe transport to the appropriate laboratory. Another part of the activity is the NADO tasks defined by the amendment to Government Decree No 43/2011 (III.23) on "Anti-Doping Rules" (III.23) which entered into force on 01 January 2017, and which are the NADO tasks required by the Public Procurement Tender, which represent the proper functioning of the National Anti-Doping Organization. In addition to doping control, HUNADO continues to prioritize awareness - raising activities, including the provision of sports information, doping legislation, warnings, and an up to date Prohibited List to athletes and their assistants for the cleanliness of sport.

Between 01 January 2018 and 31 December 2018, the Hungarian Anti-Doping Group Non-profit Ltd. fulfilled the required NADO tasks.

SAMPLING IN NUMBERS

Number of unannounced tests by state order, 01 January to 31 December 2018: 1500 samples, the distribution of samples among the members of the national teams of mainly the priority summer and winter Olympic sports; the 2018 Summer Youth Olympic Games in Buenos Aires; 2018 winter Olympic Games in Pyeongchang.

The tests were carried out in the manner specified in the Government Decree, primarily among the athletes of the Registered Testing Pool.

By 31 December 2018, a total of 1,500 samplings had been carried out by state order.

The statistical processing of the checks of the sports and Olympic Team members is annexed to the report.

Distribution of samples:

Urine – 1130 (75%); Blood – 370 (25%)

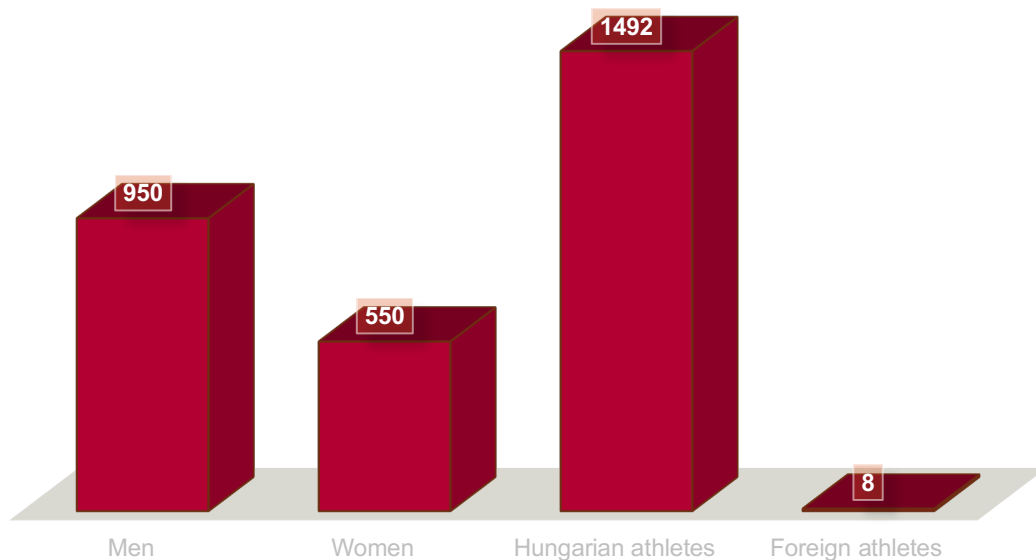

Blood tests were carried out in the direction of the following analyses: Growth hormone /Erythropoiesis stimulating agents / Biological Passport Program – Examination of blood parameters

Laboratory analysis of samples:

Blood / Urine test: WADA accredited laboratory in Seibersdorf – 1498 (99,9%)

Urine test: WADA accredited laboratory in Cologne – 2 (0.1%)

Gender distribution of sampling:

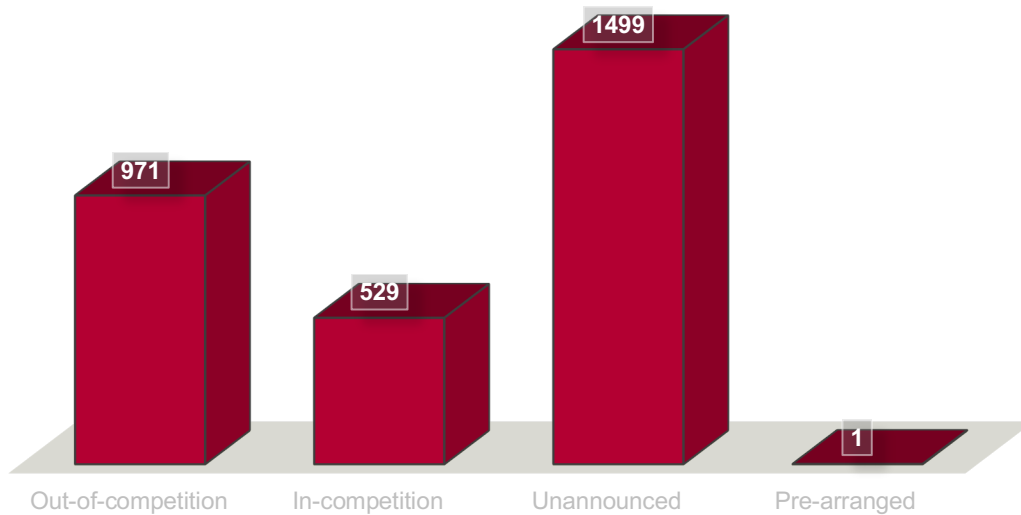

Total men: 950 (63%)

Total women: 550 (37%)

Total Hungarian athletes: 1492 (99.47%)

Total foreign athletes: 8 (0.53%)

Distribution of sampling:

Out-of-competition sampling: 971 (65%)

In-competition sampling: 529 (35%)

Unannounced sampling: 1499 (99.93%)

Pre-arranged sampling (announced): 1 (0.07%) – Doping control of an athlete who has been granted a free card entry right before the start of the Winter Olympics (Elizabeth Swaney).

The proportion of samples sampled in the competition is optimal and their importance is justified by the fact that certain elements of the Prohibited List (e.g. stimulants, drugs, etc.) can only be tested in competition and sanctioned in accordance with the WADA Code.

Age distribution of athletes subject to doping control:

Adult athlete - 1343 (90%)

Underage athlete - 157 (10%)

Location breakdown of sampling:

Budapest – 506 (33.73%)

Countryside – 989 (65.94%)

Abroad – 5 (0.33%): Training camp of the national team competing in the Winter Olympics in Austria (ski / biathlon)

During the doping control, the athlete announced the existence of a TUE licence:

TUE permit – 4 (0,3%), No TUE permit – 1496 (99,7%)

DOPING DISCIPLINE CASES

Regarding the publication of doping cases registered in 2018 in accordance with the legal regulations, the Hungarian Anti-Doping Group complies on its website.

https://www.antidopping.hu/editor_up/dopfegyugyek/DISCIPLINARY_CASES_20210731.pdf

Doping discipline cases in 2018:

Athletics, American Football, Canoeing, Powerlifting, Bodybuilding, Shooting, Para-Athletics, Jet-ski, Drive, Golf

Processing of positive cases registered in 2018, 2018-12-31: 11 Hungarian athletes

Athletics:

- Unspecified stimulants - Group S6/a - Cocain and its metabolite - positive sample

American Football:

- **Unspecified stimulants - Group S6/a - Amphetamine and its metabolite - positive sample**

Bodybuilding and Fitness:

- **Exogenous Anabolic Androgenic Steroids - Group S1/1/a - Stanozolol and its metabolite - positive sample**
- **Exogenous Anabolic Androgenic Steroids - Group S1/1/a - Metandienone and its metabolite - positive sample**

Powerlifting:

- **Specified stimulants - Group S6/b - 1,3-Dimethylbutylamine - positive sample**

Para-Athletics:

- **Diuretics and masking agents — S5. Group 2 - Indapamide - positive sample - Therapeutic Use Exemption (TUE) authorization**

Athletics:

- **Unspecified stimulants - Group S6/a - Amphetamine and its metabolite - positive sample**

Jet skiing:

- **Exogenous Anabolic Androgenic Steroids - Group S1/1/a - Metandienone and its metabolite - positive sample**

Shooting:

- **Hormone and Metabolic Modifiers / Selective Estrogen Receptor Modulators (SERMs) - Group S4/2 Tamoxifen and Metabolite - positive Sample - Therapeutic Use Exemption (TUE) Authorization**

Canoeing:

- Peptide hormones, growth factors, congenital compounds and mimetics / Erythropoietin receptor agonists / Erythropoiesis stimulant agents (ESAs) - Group S2/1/1 - Recombinant Erythropoietin (rEPO) - positive sample

Drive:

- Diuretics and masking agents — S5. Group 2 - Hydrochlorothiazide - positive sample

Golf:

- Beta blockers (banned substances in certain sports) — P1. Group 2 - Bisoprolol - positive sample - Therapeutic Use Exemption (TUE) authorization

Failed sampling procedure and failure to provide whereabouts information:

A failed doping sampling procedure is established and recorded when, on the basis of the whereabouts information sheet submitted by the athlete, the Doping Control Officers search for the designated athlete at the specified time and place, but he or she is not at the place and time specified by him. Under the WADA Code and the current Hungarian Government Decree, 3 failed samples are found to have been doping violations within 12 months and will always result in disciplinary action. According to the records of the Hungarian Anti-Doping Group, among the members of the National Registered Testing Pool, **the non-provision of whereabouts information was registered in 2018 in 71 cases**, of which 27 were exempted on the basis of the reasons submitted, while **44 cases of omission** were judged; or **unsuccessful sampling** was documented in **51 cases** - of which 20 were the athlete exempted on the basis of the reasons submitted, **while in 31 cases the omission was judged. No doping discipline procedure has been initiated for any athlete.**

Development of doping discipline procedures between 2011 and 2018

NADO TASKS CARRIED OUT IN 2018

- **In addition to continuous WADA monitoring and monitoring, HUNADO will continue to enjoy WADA's full compliant status.**
- **Based on the assessment of WADA's Compliant Audit 2017, HUNADO has fully complied with the provisions of the Corrective Plan within the time limit set, so that the full compliant status has been confirmed for another 2 years.**
- The proposals set out in the Government Decree have been prepared (test allocation plan, annual sample number appropriation, National Registered Testing Pool) and sent for approval **to the State Secretariat for Sport of the Ministry of Human Resources.**
- **The data submitted by the sports federations to the State Secretariat for Sport of the Ministry of Human Resources** have been processed, aggregated and sent as required by the Government Decree (report of the anti-doping work of the previous year, plan of this year's anti-doping work, schedules, proposal for members of the Registered Testing Pool).
- **In the event of a positive A sample or conduct justifying a doping violation,** we have notified the designated bodies and persons in accordance with applicable law and **in compliance with our disclosure obligation,** taking into account data protection regulations, we have also published the final positive cases on our website.
- The samples were carried out in accordance with the contract, in all cases by the **Doping Control Officers** for whom the Managing Director of the Hungarian Anti-Doping Group Non-Profit Ltd. issued their credentials. Currently, the Hungarian Anti-Doping Group has 45 main Doping Control Officers, which was optimally sufficient to meet the orders of the state and other anti-doping organizations (sports federations, competition organizers, etc.) for 2018. We keep a personal file on individual Doping Control Officers containing all the necessary information required by the contract.

- The tools and **unit packages for sampling** have been acquired in accordance with international standards and are recorded in a strict accounting system. The proper use of the devices is strictly controlled and hazardous waste is handled as required (SEPTOX).
- The **WADA Accredited Doping Testing Laboratory in Seibersdorf** carried out laboratory analysis in accordance with our valid contract and the provisions of the relevant International Standard for Laboratories. Sample (blood/urine) test results sent for laboratory doping analysis are continuously received, processed and archived.
- All blood tests were carried out by contracted and qualified Doping Control Officers in accordance with international regulations. For blood collections, we used only high-quality devices manufactured and marketed in quality control systems, widely used in Hungarian healthcare.
- **The supervisory audit of the ISO quality management system was completed with complete success on the basis of the receipt of the new Standard 2015 (13 April 2018) and we can state that the doping control system operated by the Hungarian Anti-Doping Group continues to fully comply with the requirements of MSZ EN ISO 9001:2015 Standard.**
- In accordance with our contract, we have taken out liability insurance for doping controls, which is still in force.

It can be stated that no damage occurred in 2018, therefore no claims were made against the Hungarian Anti-Doping Group Non-profit Ltd.

- The Hungarian Anti-Doping Group's **Internal Audit Team** continues to actively work, carrying out quality control of doping controls and on-site samplings of DCOs. The aim of these efforts is to ensure high professional standards and integrity of doping control. The DCOs' review takes place both on site, during practical work, during the preparatory phase of sampling and when handling documents. Several cases have

been carried out at random this year for the purpose of internal inspection, deficiency detection and sampling conditions.

It can be stated that the finding of a doping violation has not been failed due to the fault of the Hungarian Anti-Doping Group or due to incomplete work.

- The highest **chain of custody safety system** is also used for the transport of samples: at the end of the sampling, the DCO wraps the samples in the designated transport bag on the spot and seals them. The integrity of the seal must be ensured until it is transported to the laboratory, checked by the receiving laboratory and recorded in a report. If the seal is damaged, an investigation should always be launched to find the cause. The samples are stored in the office of the Hungarian Anti-Doping Group Non-profit Ltd., in a lockable refrigerator, under other safety measures, until transport to the laboratory.
- Through secret file management and the obligation of confidentiality of Doping Control Officers, we ensure that information on doping controls is not leaked in advance, so that random checks are carried out in a truly unannounced manner. A report shall be drawn up for each sampling, which shall be evaluated by the Internal Audit. During the supervision, we also check the work of the Doping Control Officers on the spot, and once a month all DCOs participate in mandatory training and reporting. We have concluded a framework cooperation contract with all Doping Control Officers for doping controls, and other expert activities are carried out on order and with a certificate of performance.
- The **valid international Prohibited List** has been published on our website (www.antidopping.hu) in two breakdowns – by producer's marketing name; and composition or compound name – including the possibility of obtaining a possible Therapeutic Use Exemption (TUE authorization). The current Prohibited List is constantly maintained and updated.

- **We have also published the current Prohibited List and the rules on the provision of whereabouts information in book format.** Both publications have been sent to members of the National Registered Testing Pool and the Olympic Team so that all athletes can have the right information.
- We continue to operate **the Doping Information Phone Number**, which is used by a qualified doping expert to answer a number of incoming questions during working hours from 8 a.m. to 5 p.m. Furthermore, we undertake to respond to questions or comments received at the e-mail addresses indicated on our website (antidopping@antidopping.hu; tiltolista@antidopping.hu and info@antidopping.hu) as soon as possible. Our main objective is to ensure that information on anti-doping activities can only be published at the highest professional level, with the authenticity and accuracy of the published data strictly verified.
- The official website of the Hungarian Anti-Doping Group is **accessible – an updated website that is easy to use for visually impaired athletes.** The website (www.antidopping.hu) is constantly being developed and uploaded to provide up-to-date and important information and news to all interested parties.
- **The list of members of the National and International Registered Testing Pool (RTP and IRTP)** has been drawn up on the basis of a professional proposal from the Sports Federations and all members have been notified by letter and the consent statements have been sent to them.
- **All modules of the international information ADAMS system have been implemented.** The English-language whereabouts information system has been translated by the Hungarian Anti-Doping Group and made available to Hungarian athletes and WADA so that basic instructions can be published in Hungarian in ADAMS, thereby helping Hungarian athletes to use them smoothly. In accordance with WADA regulations, whereabouts information can only be provided through the international ADAMS system. Through the Hungarian Anti-Doping Group's own

information system, only the athletes who are required to register can register to be added to the HUNADO database, but whereabouts information can only be provided through ADAMS. Therefore, everyone who is currently a member of the National Registered Testing Pool, i.e. obliged to provide whereabouts information, is registered in the ADAMS system, the entry codes are sent to them and all athletes are provided with instructions for regular use in our newsletters/e-mails and free publications. Given that for many athletes, language difficulty is a problem in the management of the international whereabouts system, the Hungarian Anti-Doping Group has undertaken to be willing to assist and mediate in the communication between the athlete and the International Sports Federation and in the proper management of the whereabouts system. In order to keep them up-to-date, we keep in touch with the athletes of the National Registered Testing Pool and keep them informed of the latest news on a regular basis. To provide whereabouts information and to keep the database up-to-date, we are constantly working on updating and modernizing the Website of the Hungarian Anti-Doping Group.

- **Failed samplings** have been registered, documented, and **sanctioned**.
- The **failure to provide whereabouts** information as a basis for doping violations has been registered, documented and sanctioned among members of **the National Registered Testing Pool**.
- In connection with the website, the Hungarian Anti-Doping Group has issued and sent an electronic newsletter on a monthly basis to the related sports federations and athletes in order to provide up-to-date information and to promote and promote anti-doping activities. We carried out this activity with great success and interest, constantly covering interesting, topical and sometimes explaining misleading or inaccurate topics in the Hungarian media.

- The **Hungarian TUE Committee** will continue to operate as required by the Government Decree, providing all material conditions for the operation of the independent Committee.
- The **First Instance Doping Commission** and the **Second Instance Doping Appeal Committee** will continue to operate as required by the Government Decree, providing all material conditions for the functioning of the Committees. Committee decisions will be sent in English to the World Anti-Doping Agency (WADA).
- The **office space of the Hungarian Antidoping** Group is constantly maintained and the necessary renovation, conversion and maintenance work is carried out. (XIV. Thököly út 31-33 B building 2nd floor; 1146. Budapest Istvánmezei út 2/C VII/099; 1146. Budapest Istvánmezei út 2/D; 1143. Budapest, 81 Stephania Road.)
- We were involved in the elaboration and development of the National Core Curriculum in its opinion and proposal phase. We contacted the State Secretariat for Education and the Deputy State Secretariat for Public Education, as well as the Professional Preparatory Committee for the National Core Curriculum of the Ministry of Human Resources (EMMI). We participated in the professional conference organized within the framework of the Education 2030 Programme in Eger and made a proposal on anti-doping activities. With regard to the presentation of the anti-doping and anti-drug theme in the National Core Curriculum, the Hungarian Anti-Doping Group enjoys the full agreement and support of the National Police Headquarters (ORFK).
- The Hungarian Anti-Doping Group traditionally organizes a **2-day anti-doping conference** once a year. The topics of these conferences will be organized on the topics of the assessment of the current domestic doping situation, the regulation and tightening of sampling, the domestic and international legal background, the harmful effects of doping on health, and the outlook for international anti-doping activities. The Hungarian Anti-Doping Group took over the course participation fee and the exam fee in its entirety this year again (21-22 November 2018). The training was open to

athletes, Olympic frame members, coaches, sports doctors, sports leaders and sports professionals. We are proud to say that the course was traditionally been held with great interest. Based on the feedback, we can conclude that the conference was meaningful, important, and useful, and concluded with complete success.

- The Hungarian Anti-Doping Group Non-profit Ltd. sends its detailed **annual report** on anti-doping activities and **statistics** to the State Secretary for Sport of the Ministry of Human Resources which will also be sent to WADA in English.
- In the spirit of **WADA's "Play True Generation" campaign**, HUNADO Sports Club has been represented at several major recreational sporting events. The Hungarian Anti-Doping Group wishes to support HUNADO SC and to show the healthy way of life of Doping Control Officers, in this way promoting clean sport and setting an example.
- **Our relations with the Hungarian sports press** are very close, during this period the Managing Director has undertaken several media appearances and appeared in virtually all Hungarian media during this period, so that we can keep the public up-to-date with the current state of anti-doping work and draw attention to the dangers of doping.
- Following the HUNADO conference, the Hungarian Anti-Doping Group held an **annual press conference**. (Budapest, 2018-11-22)

ORGANIZATION OF INTERNATIONAL COMPETITIONS

- **We have completed the doping control of the entire Hungarian team (87 members including reserves) competing in the 3rd Youth Olympics in Buenos Aires, combined with an on-site drug test.** All athletes have been added to the Database of the Hungarian Anti-Doping Group and the International Information System (ADAMS) in order to ensure possible future contacts and the smooth operation of the provision of whereabouts information. Under our separate agreement with the WADA accredited laboratory in Seibersdorf, the results of doping control of all Olympians were received

by the time the Games began – all the checks were negative. The head of the Hungarian Anti-Doping Group keeps in touch with the leaders of the Olympic team and the medical team members who have been posted throughout the Youth Olympics.

- The Hungarian Anti-Doping Group conducted the doping control of the **European Under-18 Athletics Championships** in **Győr from 4 to 8 July 2018** with the full satisfaction of the European Association of Athletics Federations (EAA). The Chairman of the Medical Committee of the European Association of Athletics Federations, Dr. Pedro Branco, and Dr. Marija Andjelkovic, who oversees the health and anti-doping tasks of the competition, praised and thanked the Hungarian Anti-Doping Group in a separate letter.
- The Hungarian Anti-Doping Group has completed the organization and coordination of doping control for the **World Junior Women's Handball Championship** in **Debrecen** from 01 to 14 July 2018. On behalf of the International Handball Federation (IHF), Prof. Dr. Hosny Ahmed Abdelrahman, Chairman of the IHF Anti-Doping Panel, praised and thanked the Hungarian Anti-Doping Group for their excellent, professional work.
- The Hungarian Anti-Doping Group completed the organization and coordination of doping control for the **Dragon Boat Club World Championships** in **Szeged** from 16 to 22 July 2018. For the International Dragon Boat Association (IDBF), Bridget Walter, IDBF's representative in charge of anti-doping duties, praised and thanked the Hungarian Anti-Doping Group for their high-quality, professional work.
- The Hungarian Anti-Doping Group completed the organization and coordination of doping control for the **first domestically organized Swimming World Cup** in Budapest between 04-06 October 2018 at the **Duna Arena**. The International Swimming Federation (FINA) and the Hungarian Swimming Federation, as the Hungarian organizer of the event, praised and thanked the Hungarian Anti-Doping Group for their work.

- The Hungarian Anti-Doping Group completed the organization and coordination of doping control for the **World Adult Wrestling Championships** held in Budapest from 20 to 28 October 2018 at the **Papp László Sport** Arena. For the International Wrestling Federation (UWW), Carlos Roy, Secretary of the UWW Antidoping Panel, praised and thanked the Hungarian Anti-Doping Group for their outstanding professional work.
- The Hungarian Anti-Doping Group completed the organization and coordination of doping control for the **World Adult Weightlifting Championships in Ashgabad, Turkmenistan**, from 01 to 10 November 2018. Representatives of the International Weightlifting Federation (IWF) and the International Testing Authority (ITA), which is an independent observer in the competition, praised and thanked the Hungarian Anti-Doping Group for their high-quality, professional work.

PRESENTATIONS

- The **head of HUNADO** gave several presentations organized by **the Hungarian Association of Coaches, at the training conference organized in the framework of the flagship training program, in order to fulfill the mandatory anti-doping information program for coaches in the credit system** entitled "New trends, novelties and challenges in the fight against doping". (Budapest, 2018-01-18; Budapest, 2018-02-14; Budapest; 2018-04-05; Tata Training Camp, 2018-05-22; and Budapest, 2018-10-30)
- The head of HUNADO was invited and gave a **presentation at the postgraduate training of the University of Győr** entitled "Diplomatic tasks in the fight against doping or new trends and challenges in doping control" at the University of Győr. The main patron of the training course: Dr. Barnabás Kovács Consul General of Hungary in Barcelona. (Budapest, 2018-03-17)

- The leader of HUNADO was invited and gave a **presentation** at the Wessling Hungary's Jubilee Scientific Conference entitled "**The Dangers of The Use of Dietary Supplements in Elite Sports**". (Budapest, 2018-04-10)
- The leader of HUNADO was invited and participated in a **round table discussion** on **anti-doping** organized by the **Crea Sports Club of Corvinus University** (Budapest, 2018-04-19)
- The head of the Hungarian Anti-Doping Group, at the request of the Hungarian Sports Medicine Society, took part as section leader and gave a very successful presentation entitled "New trends and challenges in the fight against doping based on the experience of doping controls at the Winter Olympic Games in Pyeongchang" at **the Sports Doctor Conference held every 2 years**. (Budapest, 07-08/2018)
- The head of HUNADO gave a presentation at the request and in organization of **the Faculty of General Medicine of the University of Szeged**, at an accredited (OFTEX) training course for general practitioners and sports doctors entitled "Doping – who is responsible?". (Szeged, 2018-09-22)
- At the request of the Organising Committee of the World Athletics Championships in 2023, the head of HUNADO, as head of anti-doping duties at the domestically organized World Championships, **gave a successful presentation to the International Association of Athletics Federations (IAAF) Competition Evaluation Delegation on the preparations for the World Championships**. (Budapest, 2018-10-01 IAAF site visit)
- The head of HUNADO gave a **presentation** at the **preparatory course for the sports medicine examination** organized by the **National Institute of Sports Health** entitled "New trends, novelties and challenges in the fight against doping". (Budapest, 2018-10-05)
- **At the invitation of the Medical University of Szeged**, the head of HUNADO gave a presentation on anti-doping to students of the University. (Szeged, 2018-11-12)

- **At the invitation of the HORN Foundation Secondary School in Budapest, HUNADO** gave a presentation on anti-doping for the students and teachers of the school. (Budapest, 2018-12-18)

- We continue to work with great effort in **education and prevention**, and we have given a number of presentations on anti-doping this year:

Anti-doping presentation organized by the Hungarian Powerlifting Federation at a training conference and at the General Assembly in Budapest (2018-01-06); Anti-doping presentation organized by the Hungarian Pentathlon Federation in the framework of international training (Szekesfehervár, 2018-01-08); Anti-doping presentation organized by the Hungarian Wrestling Federation (Budapest, 2018-01-19); Hungarian Judo Federation coaching and refereeing seminar (Győr, Olympic Sports Park 2018-01-20); Anti-doping presentation organized by the Hungarian Gymnastics Federation for the adult, junior and youth national teams and their coaches (Budapest, 2018-01-31); Anti-doping education for the junior and adult national teams and their coaches organized by the Hungarian Kempo Federationn(Budapest, 2018-02-09); Anti-doping presentation organized by the Hungarian Dragon Boat Association at a training conference and at the General Assembly in Budapest (2018-02-17); Anti-doping presentation organized by the Hungarian Paralympic Committee in the framework of "Health Day" and for the national team and their coaches at the Winter Paralympics (Budapest, 2018-02-22); Anti-doping presentation in Tatabánya for students and teachers of Donát Bánki Secondary School (Tatabánya, 2018-04-13); anti-doping presentation for youth footballers and their coaches at the request and organization of the Vasas Football Academy (Budapest, 2018-04-20); anti-doping presentation and round table discussion organized by PWC Hungary and the Hungarian Water Polo Association for the leaders of water polo clubs (Budapest, 2018-05-23); Anti-doping presentation organized by the Hungarian Special Olympics Federation (MSOSZ) at the organization's general meeting and coaches' conference

(Révfülöp, 2018-05-26);); anti-doping presentation (Budapest, 2018-06-09) at the request and organization of the Hungarian Snowboard Federation; presentation to the members of the men's water polo team and their coaches on "providing whereabouts information" at the request of the Hungarian Water Polo Federation (Budapest, 2018-06-27); anti-doping presentation and workshop organized by the Hungarian Water Polo Association on the use of the ADAMS system for the selected frames and their coaches (Budapest, 2018-07-01); anti-doping presentation in English organized by the Hungarian Korfball Federation for athletes, coaches and international sports professionals starting at the European Championships (Budapest 2018-07-07); anti-doping presentation in English organized by the Hungarian Dragon Boat Association for athletes, coaches and international sportsmen at the Club World Championships (Szeged, 2018-07-16); anti-doping presentation for youth team members and their coaches at the request and organization of the Hungarian Pentathlon Federation (Tata, 2018-07-18); anti-doping presentation (Budapest, 2018-07-26) at the request and organization of the Hungarian Ice Hockey Federation for U20 youth team members and their coaches; anti-doping performance for athletes and their coaches at the request and organization of the Szolnok Invictus Swimming and Water Polo Sportclub (Szolnok, 2018-08-11); anti-doping presentation for adult team members and their coaches at the request and organization of the Hungarian Ice Hockey Federation (Budapest, 2018-08-21); anti-doping presentation (Budapest, 2018-08-30) at the request and organization of the Hungarian Kendo Federation for adult and junior Team members and their coaches (Budapest, 2018-08-30); anti-doping presentation for adult and youth team members and their coaches at the request and organization of the Hungarian Curling Federation (Budapest, 2018-09-08); anti-doping presentation organized by the Hungarian Bodybuilding Association at the General Assembly of the Association for selected frames and their coaches (Budapest, 2018-10-13); an anti-doping presentation and interactive workshop organized by the

INTERNATIONAL COOPERATION

- **Mr. Witold Banka, Minister of Sport of Poland, and one of the presidential candidates for the 2019 presidential election of WADA, visited Hungary and had a personal, good-natured and very useful discussion with the head of the Hungarian Anti-Doping Group.** (Budapest, 2018-12-06)
- The Hungarian Anti-Doping Group participated with a 3-person delegate at the **WADA World Congress in Lausanne from 20 to 23.03.2018**, providing information on the topicality of international anti-doping activities, the mandatory NADO tasks set out in the new WADA Code, which came into force on 01 January 2015, and the expected doping controls and new WADA standards in the coming period.

- A member of the Hungarian Anti-Doping Group, representing HUNADO, participated as an invited anti-doping expert at the **24-25.01.2018 International Anti-Doping Conference in Sofia, under Bulgaria's Presidency of the European Union, sponsored by the Antidoping Monitoring Group of the Council of Europe and WADA.**
- A member of the Hungarian Anti-Doping Group, representing HUNADO, took part as an anti-doping expert at the due **CAHAMA meeting in Warsaw between 24-27.02.2018, organized and supervised by the Antidoping Monitoring Group of the Council of Europe.**
- The staff of the Hungarian Anti-Doping Group, representing HUNADO, participated as anti-doping experts and invited guests at the due **CAHAMA meeting organized and supervised by the Antidoping Monitoring Group of the Council of Europe in Larnaca, Cyprus, from 15-17.04.2018.**
- The Hungarian Anti-Doping Group attended the **WADA 2nd Global Education World Congress in Beijing from 24-26.10.2018** with a 4-person delegate, providing information on the mandatory anti-doping awareness and training tasks set out in the new WADA Code, which will come into force on 01 January 2020, which will be amended in 2019, and on the tasks of the consultation phase expected in the coming period and on the requirements of the new WADA Code.

Prior to the WADA Conference, the Delegation of the Hungarian Anti-Doping Group held talks with representatives of the National Anti-Doping Organization of China (CHINADA) on the preparation of a future cooperation agreement and the establishment and operation of a joint anti-doping information programme. (Beijing, 2018-10-22 - 23)

- The 2-person delegation of the Hungarian Anti-Doping Group participated in the **WADA Accredited Laboratory in Seibersdorf, Hungary, from 25-27.11.2018, at the WADA-sponsored International Anti-Doping Workshop** entitled "Wada Compliant

Audit Experiences and Lessons Learned", where the Hungarian Anti-Doping Group itself gave a presentation on HUNADO's experience.

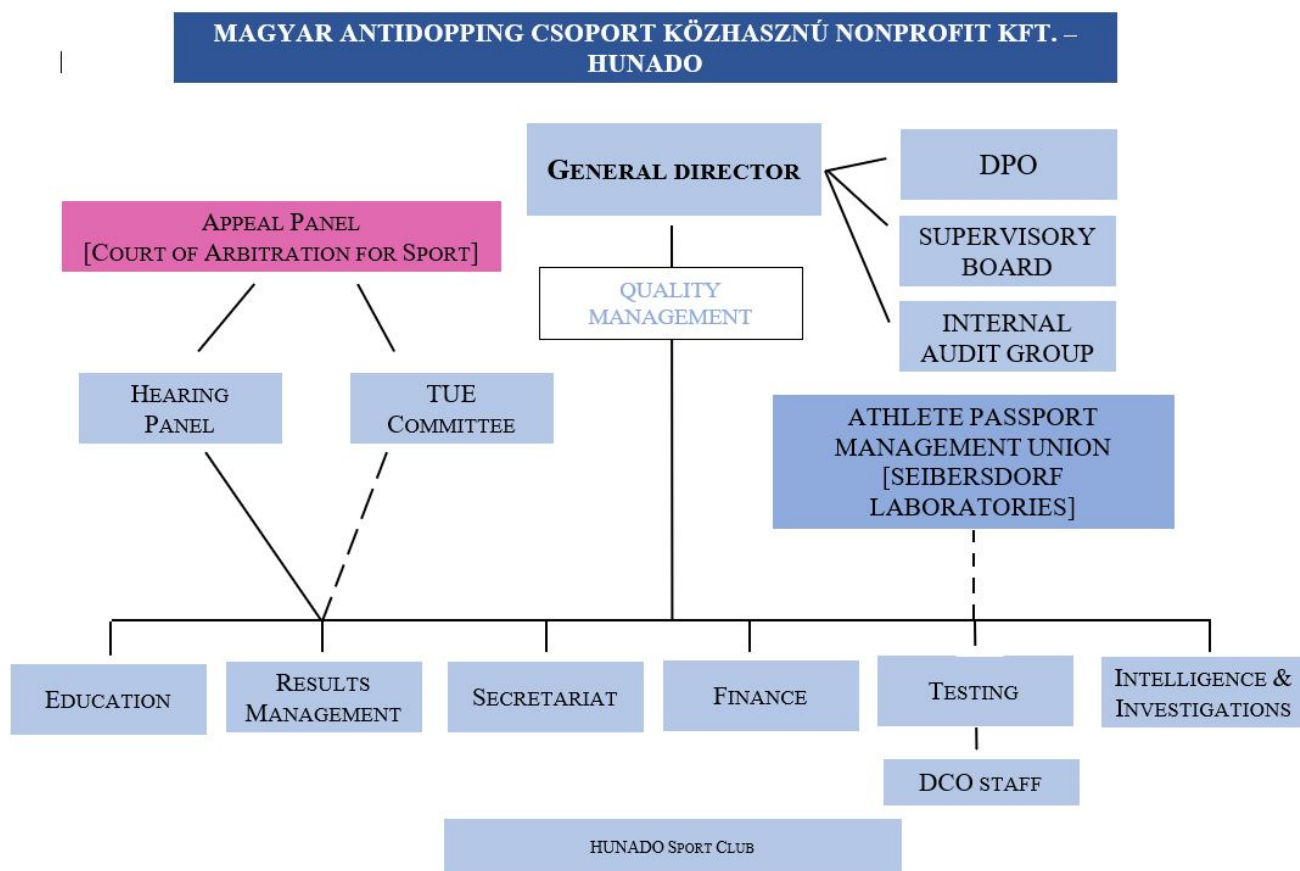

- CEADO has been re-established under the leadership of the Head of the Hungarian Anti-Doping Group as President of the Central European **Anti-Doping Organization (CEADO)** and a new statute has been adopted. The participants fully acknowledged the work of HUNADO and its leadership in the Central European region. (Seibersdorf, 2018-11-25)
- The head of the Hungarian Anti-Doping Group was invited by the Austrian Vice-Chancellor and Minister of Sport (Heinz-Christian Stache – Federal Ministry for the Civil Service and Sport) to take part in the ceremony to mark the 10th anniversary of the Austrian NADO (NADA Austria). (Vienna, 2018-11-23)
- The Hungarian Anti-Doping Group participated with a 2-person delegate at the **International Conference on Biological Passports** organized jointly by WADA and the International Society of Sports Medicine (**FIMS**) in Rome between 04.11.2018 and 06.11.2018, where a wide range of scientific news and useful information was provided.

RECOGNITIONS

- **At the Dalmady Memorial Meeting following the 2018 renewal general meeting, the Hungarian Sports Medicine Association awarded the leader of the Hungarian Anti-Doping Group, Dr. Ágnes Tiszeker, with a Commemorative Medal. The Hungarian Society of Sports Medicine established the Zoltán Dalmady Memorial Medal in 1968 in recognition of those who excelled in the theoretical and practical field of sports medicine. The commemorative medal will be presented annually as part of a commemorative meeting where the winner will give the Dalmady Memorial Performance, which was given with great success by the Director of HUNADO.**

In conclusion, the anti-doping awareness program is extremely useful and necessary, and it is in great demand from athletes and their coaches. The purpose of anti-doping education is to provide the widest possible range of up-to-date, awareness-raising, professional anti-doping information. Therefore, in the future, we would like to seize even more opportunities to continue in this and similar ways and to make our anti-doping education mission more and more effective. In addition to awareness work, we would like to continue to nurture the excellent international relations of the Hungarian Anti-Doping Group and continue its international engagement, thereby gaining even greater recognition and international reputation for domestic anti-doping activities.
